*The Friends of the Prairie River organization was formed in January 1998 to help maintain its cold, clean waters and aesthetic beauty and to benefit Prairie River trout populations and habitat. The Friends' represent those who use the river for recreational purposes, those who live near its banks and all citizens interested in the preservation of the river as a natural resource. The Friends' primary purposes are to promote the continued improvement of water quality in the river and to maintain and restore existing habitat and wildlife in the river.*
